- 3:20 PM Dismissal

Welcome to Explore AIM!

We're honored that you've taken the time and effort to be with us over these next 24 hours. Whether you're considering your role as one who goes or one who sends, our prayer is that the Lord would encourage you forward in your part of His Great Commission. We've designed the schedule you see here with that purpose in mind - take a moment to review the program, including session descriptions listed on the back. Thanks again for the privilege of having you. We trust that God will use it for your good, and for His glory!

EXPLORE

MAIN SESSIONS

- Main Session 1:** Relationships are critical in the life of faith and the consideration of missions. Begin new ones by getting to know AIM staff and other attendees, and then build from there a common foundation as we dive into God's Word and the core of AIM.
- Main Session 2:** Choosing an agency is no small decision, so we hope to provide you with extra fodder for your consideration. Dive into the work happening on the field, learn about AIM's international sending approach, and glimpse into the behind-the-scenes functioning of the office you're sitting in.
- Main Session 3:** So, what exactly does the path look like from here in the US to there among the unreached? From our heart for working with the local church, to the logistics of the application process, we'll walk you through what can be expected in the steps toward service with AIM.

BREAKOUT SESSIONS

Outreach & Training Teams

At the heart of AIM's work and history are church-planting teams. Gain a glimpse into the life and ministry of these teams that share Christ and train up new workers.

Theological Education & Mobilizing the African Church

With many African believers and churches proximate to the unreached, training up current and future church leaders is critical to the remaining task.

Creative Access Nations & Business as Mission

A vast majority of unreached people groups live in nations where individuals cannot enter on a missionary visa. Let's consider together what it takes to reach them.

AIM's Support Services (AIM Air, AIM Care, TCK Education, Administration)

The work of church-planting among the unreached is not possible without the people behind the scenes working to sustain it. How will you rely on - or contribute to - their vital services?
